Software Development / AI Projects / UI/UX

Cobourg, ON | +1 (289) 251-7410 | zemolochinaslukas@gmail.com

Portfolio: lukodevelops.pages.dev | GitHub: LukoDevelops | LinkedIn

01 Profile

Software developer and Computer Science student with full-stack development, consulting, UI/UX, and client delivery experience. Builds practical web applications and AI tools, combining usable interfaces with back-end integrations and clear communication.

02 Technical and professional skills

Languages

JavaScript, TypeScript, Python, Java, C++, HTML, CSS

Web and APIs

React, Next.js, Node.js, FastAPI, GraphQL, API integrations

Data and cloud

PostgreSQL, NoSQL, AWS, Google Cloud

Design and delivery

Figma, Framer, Adobe tools, Blender, Git, wireframing, requirements gathering, documentation, project scoping

03 Software and consulting experience

Founder

Mar 2025 - Sep 2026

Skyline Dynamics Inc.

Toronto, ON | Remote

- Founded and led a software company; defined project scope, planned implementation, and coordinated client delivery.
- Delivered front-end interfaces, UI components, and front-end/back-end integrations for healthcare and real-estate clients.
- Contributed to automotive payment-related back-end functionality and kept clients informed throughout delivery.

Software Consultant

Mar 2024 - Sep 2026

BISON ONWARD CONSULTING CENTER LLC

Los Angeles, CA | Remote | Contract

- Implemented front-end features and supported custom software solutions and system integrations.
- Clarified requirements and contributed documentation and solution planning aligned with client operations.

Software Developer

Apr 2023 - Jun 2025

Upwork

Cobourg, ON | Remote | Freelance

- Built full-stack applications using React, Next.js, Node.js, Python, FastAPI, and GraphQL.
- Delivered usable interfaces and reliable back-end logic for prototypes and production implementations.

04 Selected projects

AI Study Companion | GitHub

Built a browser-based revision tool that processes documents, recordings, and images into source-linked summaries, questions, and flashcards. Uses JavaScript, retrieval methods, local speech recognition and OCR, with optional Gemini integration.

Interactive Portfolio | Live site | GitHub

Created a responsive React and TypeScript portfolio with Three.js artwork, interactive project browsing, accessibility controls, and reduced-motion support.

05 Additional experience

3D Designer

Apr 2020 - Jul 2024

Fiverr

Ontario | Remote | Freelance

- Created custom models, textures, and visual assets using Blender for gaming, advertising, and product design.

Store Advisor

Apr 2023 - May 2024

Sport Chek

Ontario | On-site | Part-time

- Assisted customers, processed transactions, and supported inventory and daily store operations.

UI/UX Design Intern

Nov 2023 - Jan 2024

Second Bind

Cobourg, ON | Remote

- Created wireframes, prototypes, and visual assets; assisted with user research and usability testing.

06 Education

University of London | BSc Computer Science | Sep 2023 - Dec 2026 (expected)

Coursework and final project completed; results and formal degree award pending, expected December 2026.

University of Toronto Mississauga | Computer Science and Economics

Sep 2022 - Aug 2023 | GPA: 3.62 | Transfer coursework; no degree awarded

07 Selected certifications

Google: IT Support Specialization (2024)

IBM: AI Engineering, Data Science, AI Developer Specializations (2024)

HarvardX: CS50 Introduction to Computer Science (2021)

08 Languages

English: Native/bilingual | Lithuanian: Professional working

French: Limited working
